

src/domain/ports/outgoing
/TrackDataOutgoingPort.h

```
graph TD; A["src/domain/ports/outgoing /TrackDataOutgoingPort.h"] --> B["../.. /model/ExtrapTrackData.h"]; A --> C["vector"]
```

The diagram illustrates the dependencies of the header file `src/domain/ports/outgoing/TrackDataOutgoingPort.h`. Two blue arrows originate from the bottom of the top box and point to the boxes below. The left arrow points to `../.. /model/ExtrapTrackData.h`, and the right arrow points to `vector`.

../.. /model/ExtrapTrackData.h
